secluded off from surrounding, by a wall or fence or etc. Main bldg is very solid, massive, probably masonry, with long unevenly lit corridors, several levels, & offices & things w/ "official" type people.

Other bldgs complex are varying sizes & shapes. One large one seems ~~almost~~ ^{particularly} best suited to access. A few or several long low bldgs & possibly w/ rounded roofs are also present. Secretaries or blandness to purpose of Site; purpose is officially sanctified, if covert; flavor of engineering purpose using technology, perhaps newly developed in novel ways. ^{perhaps} Hybrid between govt, military, science, technocrats, etc. Foreign.
